# Introduction

- \* nax is a collection of 4444 nft pixel apes in solana blockchain generated from various traits.
- \* apes are drawn on 64\*64 pixels.
- \* holders will have exclusive perks for holding nax nfts.
- \* holders will have access to weekly sol giveaways + access to unique evolving features.
- \* the collection will be verified by howrare.io .
- \* community wallet will be setup which later converts to Fully functional dao .

the art is inspired by great collections like crypto-punks, boys, cyberkongs etc..

Smartcontracts open endless possibilities for nft collection. Nac apes are the utility u can build whatever u want with them.

# The core team

- **Udri\_nft** --> 'co-creator and lead artist'. Passionate towards portraiture and quick sketching, investor in nft space since one and half years, creating various nft arts since one year. This is udrinft's first official ape project as co-founder.
- **Shyaid\_dov** --> 'co-founder and developer' investor in nft space, programming smart contracts from seven months, assisted and worked on side lines for other projects as developer, this is shyaidov's first official ape project as co-founder.

# roadmap

Q1 & Q2

phase 1: 100% mint of nac.

( for every 15% mint we do holder's giveaways and contest giveaways )  
eligible members are randomly selected.

phase 2:-> setup of DAO. 20% of mint and 20% of royalties of secondary sales go into DAO.

-> It will be used as community wallet to buy our nfts till a token is released and 50% of funds from community wallet will be utilized for token. released token will also be utilized for staking of nac nfts. holders can hodl the token or exchange it for other crypto in a marketplace.

- Q2 & Q3
- phase 3:-> fully functional dao. direction of investment and operation of DAO decided by clan members through voting. we value democracy.
- -> release of V2 generation through breeding of naughty apes.

- UTILITIES AND PERKS:
- -> Why hold a nac nft?
- : holders will be rewarded with our token for staked nfts.
- : by holding more than 1 nac nfts holders will get a chance to breed v2 gen (baby apes or mutant apes)'more nac nfts u hold more u can breed'.
- : holders are eligible for weekly sol giveaways winners are randomly selected more nac u hold more is the chance of winning giveaways.

- BREEDING:
- -> " Smart contracts give value for nfts by making holders create their own content ".
- -> breeding lets holders create a v2 nfts from nac(og)apes. v2 nft can then be sold or used for staking to recieve our token.
- -> a cool off period will be decided and multiplied by 1.5 times everytime a baby ape is bred.
- -> traits of v2 apes are decided by the parents used for breeding, common og apes breed common v2 baby apes, rare og apes breed rare v2 babies and so on.

# FUND DISTRIBUTION:

- -> MINT:

- > 30% to artist
- > 30% to developer
- > 20% for DAO(community wallet)
- > 20% for marketing

- -> SECONDARY MARKET SALES OF NAC NFT:

- > total royalties of nft sale -> 6%
- 
- > 25% for DAO
- > 25% for artist
- > 25% for developer
- > 25% for marketing

(PTO)

- -> V2 GENERATION NFTS (CREATED THROUGH BREEDING):
  - > FEES -> 0.05-0.1 SOL + Clan tokens
  - -> 60% fund of v2 nft generation goes to DAO.
  - -> 20% to artist and developers.
  - -> 10% to marketers and moderators.
- -> SECONDARY MARKET SALES OF V2 GENERATION
  - > TOTAL ROYALTIES -> 6% OF SALE
    - ( 33% for DAO, 33% for artist, 33% for developer.)
